REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claims 1-11 is the inclusion of method steps of for registering the position of a ribbon includes determining an amount of ribbon used based on the length of time of the first status, if the length of time of the first status is shorter than a threshold, the first dye frame of the dye region is registered; determining a required moving time for the ribbon to register a start position of a subsequent dye frame of the dye region based on the length of time of the first status used to register the first dye frame of a dye region, a total length of the printed part of the dye frame, and a length from non-printed part of the dye frame to the subsequent dye frame, while one of the dye frames of the dye region is finished printing. It is these steps found in the claims, as they are claimed in the combination of that has not been found, taught or suggested by the prior art of record, which makes these claims allowable over the prior art.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Applegate et al. (US 4408908) disclose a ribbon feed system for a matrix printer. Watanabe et al. (US 5533819) disclose a character by character thermal recording device with ink sheet feed control. Sogabe (US 6292207 B1) disclose a line thermal head letter printing method. Hsieh et al. (SU 6315471 B1) disclose an apparatus for controlling ribbon tension in a thermal printer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
